Welcome

Pretty Flours handprinted products are all created using stamps I carve by hand. I create impressions that emulate gardens, both real and imagined. Block printing, rather than silkscreening, using hand-mixed colors applied to the stamp with a brush, allows for variations in color, texture, saturation, and tone. Each is a unique piece of art.

Quality is important to me. Fabrics I use are chosen for their exceptional appearance and durability. Everything is sewn by small manufacturers, thus sizes may vary by 1/4" or so from item to item. I use eco-friendly, food safe fabric paints and each towel, apron, runner, napkin and pillow is heat set to withstand healthy and rigorous use and repeated laundering. My cards and wrapping paper are created from original, hand printed art work. These prints are then reduced in size and professionally printed on high-quality papers at a printing facility powered by renewable energy here in Maine.

My textiles are each labeled with tags attached by a hand sewn button. Cards and wrapping paper come packaged for sale. All of my work is signed with my hand carved signature chop.

PAYMENT Your first order must be prepaid. Most forms of payment are accepted. Checks are always preferred. Net 30 terms are available for established accounts.

PRODUCTION I will always do my best to get your product to you quickly and efficiently and will try hard to honor special requests. Your wholesale order will arrive in one to six weeks; depending on availability of inventory and complexity of order. When you place your order, I will notify you of an estimated ship date. Note: Pillow inserts ship directly from the manufacturer.

SHIPPING Shipping costs will be calculated and included in an emailed statement on the day your order ships. Shipping will be charged to your credit card or included on your invoice.

MINIMUMS A minimum order of 3 dozen assorted items is required. Individual product minimums are detailed on product pages that follow.

RETURNS I want you to be completely happy with your order. If for any reason that is not the case, contact me right away. I will do my best to work things out to your satisfaction.

ONE-OF-A-KIND A hand printed, custom-colored look is a significant part of the special character of my work. Unlike textiles that are screen printed, each of my textiles is a unique artwork, representative of a hand-painted printing process. No two items are exactly the same. There will be slight variations in design and color from item to item, from one order to the next, and from photos appearing on my website and line sheet.

Policies & Terms
